

BOW VALLEY RESOURCE

Including Arrowwood, Milo, Queenstown, Shouldice and Mossleigh

Volume 4, No. 48.

ARROWWOOD, ALTA., AUG. 8, 1935

Subscription \$2.00, U.S.A. \$2.40

Letters to the Editor

Arrowwood, Alta.
July 31st

Dear Mr. Editor:

May I be permitted to use your paper to refute certain statements made by Mr. Blackman on behalf of Social Credit. He took some time to explain by means of cows and strawberries that elusive thing called the "Flow of Credit." However he failed to tell us how we get it started if the cow has a plaster on her neck that says she may not be sold traded or bartered for. Of course my good friends will say that the long term loans will take care of mortgages etc., but that means the creation of more non-negotiable certificates.

Did you ever stop to think of the millions of entries that will have to be made in the State Credit House, the thousands of civil servants required to take care of this? They too must be paid and you will help to help to pay them. Perhaps you will pay them with basic dividends but Mr. Aberhart said on May 8rd in the Chronicle: "The State could not simply make these monthly credit entries without providing data." I fail to see just where the required amount for basic dividends is to come from.

It has been explained to me that only ten million are required to start the ball rolling. Even the processing tax (paid on wool) on the wheat can only apply to the wheat that is processed within the province. At 5c a bushel it will only amount to \$25,000. But then the speaker said "We process a good deal of our meat too. Just how much processed meat does the average person consume in one year? Most of the farmers find it necessary to process their own so the amount raised there will be very small. The leader of the movement, tells us in glowing undertaking. Coal mine owners in the province are facing the problem as the wheat growers—no market for their products. So why open up another mine?"

He ridiculed the statement of Mr. Brownlee concerning a market for our wheat. However the fact remains that it is a paramount problem and one that concerns every person in this community directly or indirectly. Great Britain ceases to extend a preference for our wheat in 1936—what then?

You say the just price will be our salvation. Just how is the difference to be made up be-

(Continued on page 4)

UNITED GRAIN GROWERS LIMITED

A dividend at the rate of four per cent has been declared on the paid-up capital stock of United Grain Growers Limited, for the financial year ending July 31st, 1935.

Cheques will be mailed on September 1st, 1935, to shareholders of record at the close of business July 31st.

By order of the Board of Directors.
R. E. LAW President.
Winning, Manitoba.
July 29th, 1935.

Above layout shows a good cross-section of what is being done these fine summer days at the Algonquin Hotel, St. Andrew-by-the-Sea, New Brunswick. Right, Lady Morry Punsbury, daughter of their Excellencies the Governor-General and Lady Beesborough, at the conclusion of a drive from a tee at the well-known 18-hole championship golf course of the hotel. Centre shows that part of Katy's Cove dedicated to swimming,

with youngsters and grown-ups alike in the swimming waters or about to enter them. Last, illustrates another sport—sailing—Miss Margot Redmond, daughter of Mr. R. M. and the Honorable Mrs. R. M. Redmond of Montreal, sailing with her father and Captain Wren, off St. Andrews. Left is Miss Eugenie Auerbach, small daughter of Mr. and Mrs. J. A. Auerbach, of New York, all set with spade and bucket on the sands of Katy's Cove.

The Algonquin Hotel represents just about the scene of summer days enjoyment and is a paradise for kiddies and grown-ups. Sea bathing in the warm waters of Katy's Cove and sun bathing on the shining sands are two of the most healthful and sustaining occupations of those who visit this popular and smart resort to which their Excellencies the Governor-General and Lady Beesborough have given their patronage of late seasons.

Young People's Camp Successful

The third period, with the theme "Ideals of the Church of the Brethren," was conducted by Rev. Albert Hollinger. Some of the ideals discussed were peace, temperance and the spiritual life.

There was discussion as to whether we should maintain our principles in the home and elsewhere, if it causes strife or shall we keep peace by denying our principles. Our conclusion was that we shall always put Christ first and bear persecution.

A committee was chosen to draw up a resolution stating the stand we should take against war and this is to be sent to headquarters.

The open forum led by Prof. Brightbill was very interesting. Two patches were used to indicate the degrees of right and wrong. Number one, the white patch represented Right and number 10, the black patch represented Wrong. The varying gray shades between black and white are the degrees of right and wrong. The campers voted as to which number certain evils as murder, drunkenness, smoking, dancing, card-playing and petting should belong. We should never be satisfied with the shades of gray but look always toward the white patch; right. We say there is no harm in many things, but they lower the Christian life. Life is too short to be satisfied with lesser values. A positive and negative to our things is necessary. We must have a conscience true to God. Playing cards does develop mental activity but why not use something instead which will build personality as well? The challenge is to cut out our shades of gray associates and become salt of the earth.

Dinner was followed by a rest period, recreation and swimming. For the recreation period, the campers were divided into several groups, each having a captain. Two teams played volley ball while the others played softball.

(Continued on page 4)

Buffalo Hill Notes

Mrs. Lynch, mother of Mrs. McInenly, is over from the coast visiting. She reports conditions no better there than here.

We are glad to hear one of our former residents, Miss Jonnejohn, has secured a position on the staff of the Vulcan School.

Mrs. O'Neill of Calgary is visiting with her sister Mrs. McInenly.

Mrs. Hirst Goldthorpe and Win returned last week from a two weeks holiday in Seattle. Master Billie Hill of Vulcan is visiting with his cousin, David Shouldice.

There was a political meeting in the Buffalo School at 2:30 p.m. Tuesday, Mr. McPherson speaking. Although not largely attended it was quite interesting due to questions asked by both men and women.

Mr. D. Munsey is busy making out the voters list for Buffalo Hills.

Brethren Church Notes

The meetings conducted by Rev. Paul Weaver of Pennsylvania closed Sunday evening. The interest and attendance throughout the two weeks were very excellent even on rainy, muddy evenings there was not much decrease in the number present.

A most notable feature of the meetings was the participation of a large number of young people in various phases of the work, such as music, devotion and accompanying the minister in his calling. Rev. Weaver's work was much appreciated and was very helpful to the church. He went from here to Irricana to conduct services.

The Pastor will speak next Sunday morning.

In the evening quite a number who attended the recent District Conference at Irricana will give talks on the impressions received.

On Thursday evening, tonight, the young people are invited to the pastor's home.

Milo Notes

Mrs. M. H. Gooch and family of Evanston Ill., are visiting the Tom Ranch in the Buffalo Hills.

Miss Shannon left her home in Chicago on Monday, after a weeks vacation at the home of Mrs. W. R. Tom.

Mr. Tony McPherson of Vulcan is campaigning in this community in the interest of himself and the U.F.A. party.

Miss Betty Thornton is a visitor at the home of relatives in Claresholm.

Miss Maxine Watt will return this week from Spokane where she has been visiting at the home of Mr. and Mrs. Jack Johnson formerly of Milo.

Mrs. Ferdinanden of Aberdeen, South Dakota, is visiting at the home of her daughter Mrs. C. Watt.

Mrs. Lavridsen of Standard has accepted a position in the telephone office in Milo.

Mr. and Mrs. C. Sutton of Milo were visitors in High River on Tuesday.

The men and girls softball teams journeyed to Crowfoot picnic grounds on Sunday and played various games with Standard in which they were victorious. This is as it should be, Milo.

Messrs. Ballachey and McDonald of High River were visitors in town the early part of the week.

Carman Watt and George Vennesland accompanied by Mr. C. Umchield enjoyed a fishing trip to Waterton Lakes. The only drawback Carman wanted to fish and no one had remembered to bring poles.

(Continued on page 4)

Arrowwood Notes

For Sale—Binder and Binder hitches. Apply E. B. Dotau.

Miss Evelyn Burris is conducting a Daily Vacation Bible School this week at Irricana.

Miss Carol Christenson of Banff renewed acquaintances while in Arrowwood Sunday.

Mr. Russell Culp and family returned Tuesday from a tour of the mountains.

Confirmation services are being held this week at St. Columbus Church.

For Sale—Ocumbers for pickles. Call The Lyle Farm.

Mr. Earl Larson of the local bank staff left Monday on his holidays.

Mr. and Mrs. Jack Beagle returned this week from their holidays at Banff.

Mr. Wood, relieving manager at the local bank left Monday, when Mr. R. H. Bishop returned to resume duties.

Hermen Leith and Teddy Weins assumed the role of sailors Tuesday when they sailed down the irrigation ditch to Lake McGregor in their home made gondola.

Joe and Neal Dumka arrived back in town last week from a four weeks stay with their brother at Ethelburg, Man.

After spending an enjoyable holiday at home in Arrowwood, Miss Dorothy Vancil returned to Deaconess Hospital, Wainchee, where she will resume her training.

A Big Social Credit Meeting will be held in the Phillips Hall Arrowwood, Tuesday, Aug. 13 at 8:30 p.m. Speaker will be Rev. Peter Dawson, candidate for this constituency. Everybody Welcome.

ALBERTA SAVINGS CERTIFICATES

A Sound Form of Investment

By Issuance of Savings Certificates, the Province of Alberta has for many years afforded opportunity to the public for investment of their saving at attractive interest rates, at the same time assisting the Province in maintaining public services vital to the welfare of the people.

In addition to the usual "Demand" Certificates, available in denominations of \$5 and upwards, the Government in 1932 inaugurated Term Certificates, bearing a fixed rate of interest for stated periods of one, two or three years. Purchasers of these certificates are afforded the same security as on Provincial Bonds. The term certificates are available in various denominations from \$25 up and are not subject to the varying market prices for debentures.

4 1/2 %	Per Annum Paid on Two and Three Year Term Certificates.
3 1/2 %	Paid on One Year Term Certificates.
3 %	Paid on Certificates redeemable on demand.

Alberta Government Savings Branch

Treasury Department, Edmonton

HON. J. R. LOVE, Provincial Treasurer

For Sale—1927 Power Binder. Cut only 240 acres. A-1 condition. If interested communicate with R. J. Macomber, Queenstown.

Mr. and Mrs. V. E. Vancil, Dorothy, Hildred and Kenneth, returned from a holiday spent at Banff on Tuesday.

Mrs. H. E. Downe and her two children, Cynthia and Aylward, have returned to Calgary after spending ten days as the guests of Mr. and Mrs. A. L. Ingraham.

The Misses Margaret Bell and Evelyn Holland are this week enjoying a leisurely visit at the Cliffguard home.

For Sale—Harvest Orders for large quantities of butter are solicited by Mrs. Glen Field at a price of 20c a lb.

Mrs. Paul Kauffman and family of Glancy are spending a few days visiting at the homes of Mr. A. J. Kauffman and Mr. V. E. Vancil.

Dr. and Mrs. E. J. Liesemer and daughter Norma, arrived home Monday after a two weeks vacation at Sylvan Lake.

For Sale—
1 floor lamp \$3.50
Aladdin Lamp 1.50
Lunch box and thermos .75
6 bread and butter plates .30
1 pencil .35
7 kitchen shavers .75
Felted doors .28
Several other small articles.
The above articles may be seen at the home of Mrs. Mason.

For a Special Treat Serve

Palm Ice Cream

Available in Assorted Flavors in Bricks or Bulk at the

Arrowwood Bakery

HOW TO MAKE CED TEA

Infuse its heating teaspoon of Salada Black Tea in a pint of fresh boiling water. After six minutes strain liquid into a quart container. While hot, add 1 1/2 cups of granulated sugar and the juice of 2 lemons. Stir well until sugar is dissolved. Fill containers with cold water and keep in refrigerator. Before drinking the cold water, otherwise liquid will become cloudy. Serve with chopped ice.

Short Life-Stories

Now and then the writer who is responsible for this column each week feels impelled, instead of writing an article himself, to pass on something he has read which may prove helpful and encouraging to others. This is one of those times when two or three short stories from real life seem to call for repeating.

There has been a lot of talk, the last few years, about how the worker is exploited under capitalism. Not long ago I read about the other side of the picture. Let us tell then of a man, a small manufacturer, who, when the crash came, employed twenty people. His business has shrunk during the depression, but the same twenty are still on his payroll. What is more, he is still paying them the same wages. He has done this by ruthless cutting of his own expense, and by dipping into his own capital. He has carried the people who work for him as a personal responsibility. He doesn't like to talk about it. When questioned, he merely shrugs his shoulders and insists that he has done nothing extraordinary. "It's like buying," he says. "When you come in after a hard ride, you see that your mount is fed and watered, don't you? I can't do less for the people who work for me. I can't sleep when I know they aren't sleeping well. That's all there is to it." Such men do more toward making this a better world than a thousand laws, enforced by a million policemen. The Golden Rule is the one code that seems to work.

Real life beats anything the fiction writer can invent. Take the case of another man who used to be a branch manager for a big concern. He had an impressive suite of offices, and a number of people working under him. He belonged to the best clubs, drove a big car, and lived well. As the years passed, he grew to take his position more seriously. He began to pay more attention to outside interests and less to his job. Things grew hard, but he still took things easily. The home office was troubled. Hints, increasingly broad, seemed to have an effect on him. Finally it was decided that he must be discharged. But the boss, remembering his long years of service, intervened, and, in compromise, he was recalled to the home office. There he was given a desk among the city salesmen. It must have been a hard one for him to swallow, but he accepted it. He never referred to his former grandeur as a branch manager. Always smiling, he was down earlier than any of the cubs; and stayed later. He took what leads were given to him—most of them considered too hopeless for a good man to bother with—and did his best. It was soon forgotten that he had been demoted. He was accepted as just another salesman. No one paid much attention to him. The younger men rather smiled at the real of "old" Blank, as they called him. When not on the street, he was always telephoning somebody, or busily thumbing over his prospect file. In the front office, however, a strange thing was noted. Blank's sales began to climb. Customers—big ones—appeared out of the blue, insisting that they must deal with Mr. Blank. The other day, Blank was made General Sales Manager.

It is doubtful if there is any better cure for the weariness of spirit which comes from endless discussion of economics or disputation over such things as politics, than an hour or two with a microscope. For a trifling sum of money, one gains admission to a world full of new and fascinating things. In a single drop of water, scooped from the nearest ditch, there is literally endless entertainment. After a time in this world with its breathless drama and life-and-death struggles between incredible creatures, the real world seems curiously remote and unreal. One returns to it refreshed, and with a saner point of view. There is the man whose whole life is collapsed in disaster. He saw nothing ahead of him but a dark night in the bow of the ship which was taking him back to the wreckage of his career; he resolved to throw himself into the dark waves. But he happened to glance up to the great arch of the sky, filled with timeless stars; and suddenly his own life, happy or otherwise, seemed oddly unimportant. He returned to his problem, solved many of them, built a new and successful career upon the ruins of the failure—and, incidentally, became famous as an astronomer.

This is the time of year when young men, just out of school and college, are trying to plan their futures. Many write to friends, asking advice. The advice given by one such friend to a young man was as follows: All I can answer to you is that I wish you would get a real career, I'd look for it as far away from the big cities as I possibly could. The more glamour in your life—perhaps more of what is called "success." The money-making possibilities are greater. But from what I have been able to observe in my journey through this vale of tears, the small-town man gets the most fun out of life. He may earn less, in dollars, than his city cousin does; but his living costs less, and he has more time in which to enjoy the dollars he has. If I had my life to live over, I think I'd start out by heading for a small community, and dig in there. Every now and then I'd visit a big city just to remind myself how smart I'd been to become a small-town fellow.

Expedition To Greenland

British Scientists To Spend Three Months in Arctic

Under the leadership of L. J. Wager, 14 members of the British East Greenland expedition left Aberdeen, Scotland, recently in Sir Ernest Shackleton's exploration ship, The Quest.

They planned to spend three months in the Arctic engaged in scientific work and will explore several mountain peaks which have never before been visited.

The Quest is manned by a crew of 14 Norwegians. Four members of the expedition were accompanied by their wives.

Nazi Newspapers Banned

Switzerland has banned the sale of all German newspapers in this country and suppressed the Nazi organ published in Zurich.

The action of the federal council closely follows a similar move by Germany against Swiss newspapers.

The Hat Went Home

Story From Liverpool Could Be Used By Ripley

An astonishing hat trick was performed by a 77 miles an hour gale at Merseyside. A Bebington (Birkenhead) man bought a new hat at a Liverpool shop, put it on his head, and carried his old hat in a paper bag. When he reached Bebington Station the wind lifted his new hat and carried it to the station. The man over the tops of the houses and out of sight. On reaching home he was amazed to find his new hat on the kitchen table. It had dropped in his backyard.

Beacons For Sahara Desert

Because of the rapid increase in traffic in the Sahara Desert British beacons will be erected every five miles along the route of the trans-Saharan route for motor vehicles and airplanes. These will map the route clearly by day. Desert lighthouses are planned for night flying.

The sun's estimated surface temperature is about 12,000 degrees Fahrenheit.

To Promote Highway Safety

Ontario To Cope With Rising Tide Of Automobile Accidents

To cope with the rising tide of deaths from automobile accidents in Ontario, Hon. T. B. McQuesten, minister of highways and acting attorney-general, announced 12 constabularies had been added to the provincial police force, most of them detailed to the highway traffic patrol.

Provision for additional traffic police marked the latest step in Mr. McQuesten's campaign to promote highway safety. Possession of a driver's license has been made the basis for enforcing the traffic laws, said the minister, and he listed two other features of his safety campaign—police inspection of motor vehicles and equipment and an advertising campaign.

Department records showed 502 persons had been killed in automobile accidents during the first six months of this year, compared with 364 in the corresponding period of 1934. The June death toll was 44, an increase of 32 above the May total.

"A small fine does not quite meet the situation," said Mr. McQuesten. "We will get more attention to the law if we exercise freely the cancellation of the driver's license for a term."

Giant Air Cruiser

United States Army Air Corps To Test Out Machine

A giant "flying battle cruiser," claimed the fastest and longest range bombing plane ever built, will be tested soon by the United States army air corps at Wright Field, Dayton, Ohio.

Specifications demanded by the air corps included: A speed of 200 to 250 miles an hour at 10,000 feet altitude; an operating speed of from 170 to 200 miles an hour at the same altitude; endurance at operating speed of from 6 to 10 hours, and a service ceiling of from 20,000 to 25,000 feet.

The aerial battle cruiser has a wing span of approximately 100 feet, length of 70 feet, height of 15 feet, and gross weight of about 15 tons.

Just a Coincidence

Science Of Deduction Came As A Shock To Bus Conductor

A remarkable experience befell Col. Foley when he was traveling down Oxford street in a bus and heard the conductor telling a passenger the names of the shops that originally stood on the site of a large store. Surprised, since his breathless delivery of letters there Col. Foley asked him: "How long ago were you a postman?"

"How did you know I was a postman?" the conductor retorted.

"Quite simple, my dear Watson," said the colonel.

The man who had evidently not read his "Sherlock Holmes," nearly fell off the bus. His name actually was Watson.

New C.P.R. Liner

New Sister Ship For Express Of

Sir Edward Beatty, president of the Canadian Pacific Railway Company, said before sailing to Canada from Southampton recently a sister ship for the Empress of Britain would be built.

"We shall need a new liner of the same type as the Empress of Britain," Sir Edward said, to give a balanced service.

He added that an order would be placed two years before the Empress of Australia, under the service of the Empress of Australia and the question of replacing that liner would come up within the next five years.

Substitute For Wool

A process to turn silk into a wool substitute is being developed by Japanese scientists. The process involves the use of a special machine to spin the silk into a form that can be used as a substitute for wool in the manufacture of textiles.

Little Wheat On Royal Estate

The Sandringham estate of His Majesty King George contains about 2,500 acres. The method of cropping the land is largely responsible for the depression in the agricultural communities.

An Amusing Incident

Guide In Westminster Hall Embarrassed By Touring Party

Presentation of loyal addresses of parliament to the King in Westminster Hall during recent jubilee celebrations has recalled an amusing incident in the same historic chamber when a party of Scottish fishermen were touring London.

The girls from the north were being taken through the building by a police officer who pointed to the plate indicating where Sir William Wallace, national hero of Scotland, was in 1305 tried and condemned to death for treason against the English to whom he declared he owed no allegiance.

Immediately the Scottish women, with much power and expression, broke out in the well-known ballad, "Scots Wha Hae Wi' Wallace Bled." This was a most improper proceeding, of course, and the women's conduct was in a dilemma. His sympathies were with the women but his duty dictated either the suppression of the singing or the expulsion of the singers.

Without saying a word, the escort walked quietly away to look up a superior officer for instructions how to act in the matter. After some searching he found his officer and returned to the spot. As he had expected and wished, the singing was over and the songsters gone, leaving no trace. The officer did not report the incident, the account of which has leaked out since the jubilee celebrations.

Find Indian Relics

Remains Of Two Indians Unearthed In Saskatchewan

One of the most interesting finds of the season, in Saskatchewan, was the discovery of the remains of two Indians at the site of Professor Vigfuson, at old Pelly crossing, near Roseauville, the remains of two Indians in shallow graves. They have been carefully lifted and sent to the history museum at the University of Saskatchewan.

One of the graves yielded only a few bones, some charred birch bark, and a few charred sticks. The other contained a complete skeleton of some Indian brave, in excellent state of preservation.

The body had been placed on its left side, facing west, and was just a few feet below the surface of the ground. Thousands of colored beads of different shapes and sizes were found about the remains, as well as a piece of flint and the rusted remains of what had been a hunting knife. There were also the bones of two small animals, possibly a squirrel and a mink, placed beside the body, as provisions on the long journey to the happy hunting grounds.

Professor Vigfuson has spent considerable time in the district gathering up historical data.—Regina Leader.

Keep Method Secret

Chinese Have Mysterious Way Of Making An Airplane

An ancient Chinese method of autopsy, known only to a closed group of practitioners, whose knowledge is being passed down by word of mouth from generation to generation, has resulted in the release of the two sons of Chia Tehshun, who died 18 months ago.

On the basis of these findings of the method, known as "steam bones," the two sons have been freed of the suspicion of having murdered their father.

The body was exhumed and two "steam bones" experts attached to the Examination Department of the District Court were asked to perform an autopsy.

With the aid of yellow Chinese wax, a small mill, a dash of vinegar, Chinese herbs and an umbrella, the experts were ready to announce the result of their investigation.

"Mr. Chiao met his death from hanging. However, it is clear that he hanged himself, and was not hanged by his sons or by any other person."

New Source Of Wealth

New Method Found For Extracting Gold From Sea Water

Recovery of gold from the waves, 10,000,000,000 tons of it in all the seven seas, appeared less of a dream with announcement in the publication "Science," that Professor Colin G. Fink, of the Columbia University School of Electrical Engineering, had succeeded in recovering small amounts of the yellow metal from salt water.

Five thousand needy school children in Johannesburg, South Africa, are being fed by the city.

"GUID ECONOMY"

LARGE PLUG

20¢

PLUG SMOKING TOBACCO

Thrifty men will tell you, That "Dixie" cuts expense, The Plug that lasts much longer, And costs but twenty cents.

FASHION FANCIES

For Prison Reform

Borstal System Is Recommended For

After studying in detail application and operation of the Borstal system in six English prisons, General Omond, superintendent of Canadian penitentiaries, has reported to the Dominion government his opinion that similar training and treatment of youthful offenders can and ought to be put into effect in Canada.

Hon. Hugh Outhrie, minister of justice, tabled General Omond's report in the House of Commons and declared the system may be made effective in Canada within 60 days. No legislation and no extra money vote would be necessary but there would be some staff additions and extra buildings needed.

The Borstal system, forecast for Canada in the speech from the throne at parliament's opening in January, "is a combination of mental, moral, physical and industrial training of a strenuous kind," for convicts under the age of 21 years.

Selected penitentiaries inmate under the age of 21 would be housed separately and made the subject of this training with a view to correcting their habits and preparing the youth for more useful effort on discharge.

New Type Slot Sets

France Is Installing Penny-In-The-Slot Machines

Penny-in-the-slot radio sets for the home have been introduced in France. Instead of buying a set, it is possible to have installed a few, high-powered net with a small slot machine attached. On putting a franc into the slot 40 minutes' radio programme is assured. This may be either at a stretch or in several short programmes until the 40 minutes are exhausted. A maximum of ten francs may be put in at a time, thus ensuring nearly seven hours of music.

First Jap Car In Rand

The first Japanese automobile to reach the Rand of South Africa has created much interest. It is a little two-seater, driven by a four-cylinder motor unit, and has three forward and a reverse gear. It is claimed to travel 50 miles on a gallon of gasoline, and is equipped with a rubber bulb horn, which honks Japanese effectively.

HEALTH MEANS CHARM AND HAPPINESS

Sparkling eyes and smiling lips speak of health and good nature. The healthy person is both happy and successful. Poplar.

Perhaps you are really ill. If day's work is done you are too tired to enter into the good times that other workers enjoy, for extra energy. Lydia E. Pinkham's Vegetable Compound is just what you need. Remember that 98 out of 100 women report benefit. Let it help you too.

Young People's Camp

(Continued from page 1)

After supper, the campers hiked for vesper services to the summit of a hill overlooking the river and valley. Sunday evening a large group of visitors and campers viewed a gorgeous sunset. Below and beyond us could be seen the river and valley. How inspiring it was to sit quietly, directing our thoughts to God, the Creator of all this beauty!

Another evening, for vesper service, half of the group hiked to the summit of a certain hill while the others went to another hill about a quarter of a mile distant from the first. One would sing a verse or two of a hymn. A few seconds later the other group would respond by singing the remaining verses or another verse.

Several scripture verses were repeated. Distance seemed to lend enchantment to the music. One group formed itself into the shape of a cross, and evening came on and it grew dark, a light was placed at each extremity of the cross, making the scene very interesting and one which will be long remembered by those who viewed it.

From vesper we went to the campfire service. Here our thoughts were again directed to God. As we gazed into the fire and watched the blazing logs from which clouds of sparks shot upwards and then disappeared, our leader spoke quietly of those things which really matter.

Our last campfire service was especially impressive. A wind arose and it was necessary to scatter the burning logs. In spite of the smoke and smoke this service will perhaps be the one which will be longest remembered because of its significance. The smoke and the sparks only indicated the trials and buffalings of the world which we must face, if we are willing to go all the way with Him.

On Tuesday, as a climax to our camp, a baptismal service was held. After dinner, camp closed but not without a feeling of sadness at departing from those with whom we had become so closely united.

A Blackfoot Camper

Letter to the Editor
(Continued from page 1)

tween market price and just price? Suppose the market price falls short by ten cents of the first year of the experiment. Then of course the farmers the good fellow who makes up the difference. On June 14 Mr. Aberhart said he would seldom require more than ten or fifteen cents a bushel.

In 1931 we received a tax bonus on our wheat. If in 1932 Mr. Bennett had said "Now look here, it seems that we gave you farmers too much last year. Now this year we demand a few of only 2½¢ per bushel." Can you imagine the storm of indignation that would have come to pass?

On April 9th the leader slipped a little and actually came out and said that the money would be raised by a tax on imports. If your basic dividend has to come out of a tax on the goods you now buy, how much further ahead are you? The explanation that we are going to have a just price for all commodities is just so much say-so.

Do you think Henry Ford will lower the price on a car because we have Social Credit in Alberta? His price is set F.O.B. the factory and no provincial government can tell him what that price shall be. Could the manufacturers in the east set one price for Alberta and a higher one for the other provinces? It can't and won't be done.

Don't think you're aiming a blow at the fifty big shots. They don't live in Alberta and will not be affected in any way by our decision on election day. Social Credit plan says a dividend will be paid to rich and poor alike. You've heard the leader say "We shall take nothing from the rich." But the farmers and consumers are going to pay unless levies in order that \$25 a month may be paid to rich and poor alike—even Mr. Patrick Burns will be given his basic dividend. I'd rather give my support to a movement that says the incomes of the rich shall be taxed to provide for the poor, and a system that plans to retire men at the age of 55 in order to make room for youth to get employment, not a dolo.

The speaker last Wednesday evening extolled his inspired leader. No man who has had Divine inspiration could judge

others as he has done. All those who oppose him are grafters, crooks or other henchmen of high finance. The U.F.W.A. have become the Undernourished Fool Women of Alberta. Some of those same women contributed towards the building of his tabernacle. They thought they were helping to build a consecrated place of worship. It has become a political arena. We dare to differ with him we are in league with the Evil one. He cannot be excused by his followers who say that it was part of a letter. Any public man is responsible for what he reads in a public place, and for any quotations he may make. He prefaced the reading of the letter with the remark "It's a scream."

The work done by the U. F. W. A. in regard to Health, Education, Social Services, etc. Few should justify their existence and counteract the remarks regarding our status.

Few of us are undernourished physically, so I take it that the inference was that we were lacking mentally. I think the U. F. W. A. has done sufficient good in our own district that we do not have to sit back and take insults of that kind from anyone, much less from a man said to work by inspiration, certainly not by thought in this case.

Major Douglas himself said: "I may say that the explanation of the just price is not that which can be applied to the same phrase as used in the responsible literature of Social Credit." The proposal seems to contemplate a fixed price regardless of costs which seem to be assumed as constant, and this price includes something labelled the "unearned increment" which has, however no relation to that phrase as used in Social Credit Literature.

Major Douglas was not labelled a fool because he did not see eye to eye with the leader of the movement in this Province.

I still maintain that the problem of the farmer to-day is to pay off debts incurred when wheat was \$1 and \$1.50 with wheat at 60¢. Mr. Coote has consistently pressed for lower interest rates which would save us more than our dividends would give us. If we lose our market for wheat \$25 a month won't keep us from going under.

Milo Notes

(Continued from page 1)

Mr. Bruce Marsden reports the loss of an old friend, Pilot W. R. McCuskey of Vernon B.C. by death in the recent tragic airplane crash at Alta. Lake B.C.

Mr. and Mrs. J. K. McLean of Milo leave on Friday to enjoy their annual vacation.

Mr. and Mrs. Gill Williams have returned from Banff, and taken up residence in town.

Start and go, with - Texaco.

In the absence of Mr. Percy Baldwin a large amount of gasoline and cylinder oil suffered from the depredations of sneak thieves.

The coyotes are bothering the turkey ranchers west of Milo.

Mr. E. Douglas Hardwick of Armada is gathering his winter's supply of feed on his ranch.

Harvesting has commenced in this district, but will not be general for ten days.

Mr. Alvin Godkin purchased a Sunshine combine from the local agent in Milo.

We regret to announce a stiff neck on Mr. Evan Beechman, our energetic telephone agent. He won't tell us how he got it.

Mrs. Gae McMorris is expecting the return of her daughter and a friend from Standard, where they have been holidaying.

Slim Marsden is showing some swell new radio receivers these days, Marconi, Rogers and Victor. Prospective owners of radio are invited to drop in and get acquainted with the latest and best in home radio.

Additional Locals

Mr. and Mrs. E. E. Jacques and family are expected to return to-day from a one week vacation at Sylvan Lake.

Master Orland and Delmer Burr of Calgary are spending their holidays with their aunt, Mrs. J. H. McCann.

Mr. M. Leonard paid a hasty call to friends in Nanton last Sunday.

Mr. and Mrs. A. Volesky of Lomond visited Sunday with Mr. and Mrs. F. Johnson.

Arrowwood United Church

Rev. J. N. Wilkinson, Minister

No Church School during August
11.45 a.m. Morning Worship

Prices Cut
to the Bone

on McCormick-Deering Combines

● Right now—when you need sound, efficient equipment to handle a heavy harvest—we are able to offer you McCormick-Deering Harvesters and Windrow-Harvesters at drastically reduced prices. Never before have you seen such bargains in standard current-model combines backed by over 100 years of harvest machine experience. Never before have you had an opportunity to change over to the time and grain-saving combine method on such an advantageous basis.

Purchase of a combine is a very important investment. You are buying it for 10 years or more of harvesting. Each year will be exactly as important to you as this first year. That is why combine service is just as valuable and vital to you as the combine itself. Be sure you get both!

McCormick-Deering No. 8 and No. 11 Combines are great values even at their regular prices. At their special new prices they are such "buys" that you cannot afford to let them get away from you.

We will give you complete information and quote you the new low prices on these brand-new 10, 12, and 16-foot machines on request.

Showing the McCormick-Deering No. 11 Harvester-Thresher with 16-foot pick-up and 16-foot binding gears (top) and a 16-foot mouth out by window harrow.
